

LIGHTBOXES

Made with Light Blanket Technology
THE SMART CHOICE FOR BACKLIT DISPLAYS

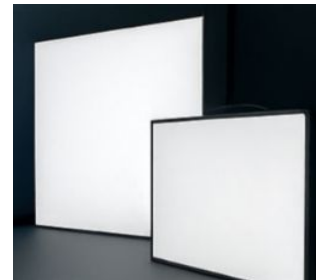

WHY CHOOSE LIGHT BLANKET?

Light Blanket is the ultimate lighting solution for tension fabric displays, lightboxes, and signage applications. Engineered for performance and ease, it delivers flawless illumination every time.

TOP FEATURES

- **Easy Maintenance**
Quick access to both lighting and drivers ensures minimal downtime.
- **Effortless Installation**
Designed for a hassle-free setup that saves time and labor costs.
- **Flawless Illumination**
Zero hot spots. No shadowing. Just smooth, consistent lighting across the surface.
- **Limitless Sizing Options**
Whether standard or custom, Light Blanket scales to your exact specifications.
- **Custom Shape Compatibility**
Adaptable to any configuration—perfect for creative and architectural designs.
- **Uniform Brightness**
Consistent output regardless of lightbox size.
- **Neutral Color Temperature**
A balanced LED tone that complements all graphic styles and brand palettes.

PERFECT FOR:

- ✓ Retail Displays
- ✓ Airport & Transit Signage
- ✓ Trade Shows
- ✓ Corporate Environments
- ✓ Hospitality & Entertainment Spaces

Experience the difference. Choose Light Blanket.
